Who do I contact with questions regarding registering for SAGE?

If you are a municipality or county, you are already registered in SAGE through the Department of Community Affairs. However, if you have never personally used the SAGE system, you will need to register through the authorized official in your municipality or county. This individual is usually someone in the Mayor's or Freeholder's office. You may also contact the Department of Community Affairs at helpdesk@DCA.STATE.NJ.US or 609-292-8134 for this information.

If you are not a municipality or county, you will need to register through the Division of Multimodal Services. To do this, go to the SAGE Login page and select 'New User'. Fill out the necessary information, email Clare Mansfield (Clare.Mansfield@DOT.NJ.GOV) that you have requested access, and the Division of Multimodal Services will complete your registration.
